

What are the advantages of an SSRE Membership?

- You will get an electronic newsletter four times a year as well as highly up-to-date electronic flashes in between times which will provide you with news in educational research and inform you about scientific events on the national as well as on the international level, about educational politics and the existing possibilities to finance research projects, job offers in educational research etc. You can also request us to publish an event of your institution and/or an important piece of information of interest from the field of educational research.
- Our journal, the „Revue suisse des sciences de l'éducation“, is published three times per year in Gold Open Access: <http://www.szbw.ch>
- You will get specific information about the annual conference as well as the pre-conference for young researchers which the society regularly organises. As a further advantage you will benefit from a cost reduction when taking part in these events.
- The SSRE currently has 8 working parties on specific subjects with researchers from Switzerland and abroad whose main focus is on educational research. These working parties are an important part of the scientific discourse in the SSRE. You will find them under: <http://www.sgbf.ch/> → Organ. Structure.
- The SSRE is a member of the European Educational Research Association EERA. The latter also holds a yearly conference and a pre-conference. If you attend the European Conference on Educational Research (ECER) and the ECER pre-conference, you will benefit from a significant reduction on the registration fee.
- The European Educational Research Journal (EERJ) is a journal devoted to questions from educational research which are relevant from a European perspective. Since 2016, as a member of the SSRE, you get free online access to the journal.
